Fig. 2: the Archive Manager in the Archive Storage Subsystem

Fig 3 : Status of RAID1

1100

	3070	3080
3010	Default	Setting Range
3020	Number of Disk in RAID1 Group	2 less or equal total of disk
3030	Number of Accessible Disk in RAID1 Group	1 less or equal Number of Disk in RAID1 Group
3120	Power Status of Accessible Disk (power saving)	ON Saving mode ON, Saving mode, OFF
3040	Power Status of Standby Disk (power saving)	OFF ON, Saving mode, OFF
3050	Power Status of Waiting Disk	OFF ON, Saving mode, OFF
3060	Trigger of Role Reversal for Power Saving RAID1	Time (one week) Time (day, week, month), Equation of Access Time
3090	Threshold of Maintenance Warning	70% of total used space total used space (%), total used space (Giga Bytes)
3100	Number of Spare Disk	10% of Number of Disk in Archive Storage Subsystem less or equal a half of Number of Disk in Archive Storage Subsystem
3110	Time of Mode Switching	1 week hour, day, week, month
	Rewrite after read-only	No Yes, No
